

RESEARCH STUDY: PERSONAL SPIRITUALITY AND PUBLIC SCHOOL LEADERSHIP

SCHOOL PRINCIPALS NEEDED FOR INTERVIEWS

- **At least two years of experience as a public school principal**
 - **Engaged as a practitioner of any religious faith**

As a school principal, you are in the midst of an unprecedented situation, making decisions that will affect the safety of your students, parents, teachers, staff, and the community at large. As part of my doctoral dissertation, I am exploring how public school principals of any religious faith have experienced the engagement of personal spirituality within their leadership.

This study is not looking to examine or challenge the topic of separation of church and state. It is simply exploring the motivations, practices, and complexities involved when public school principals of any religious faith connect their personal spirituality to their educational leadership within the context of New York State.

If you are a public school principal in New York State who is willing to speak with me about the ways you connect your personal spirituality to your educational leadership, would you kindly send an email to me at the address below or through LinkedIn? During the study, you will be interviewed via Zoom on a schedule that is convenient for you. Your name, school district, and location will be kept strictly confidential in all documentation and reporting.

This dissertation project has been approved by the Institutional Review Board of Eastern University. If you have questions regarding your rights as a research subject, please contact the EU Institutional Review Board at IRB@eastern.edu.
