TOPIC

Reducing Stress and Anxiety in the School Setting for School Leaders: Part Two

Supporting Teachers and Other Members of Your School Communities

This discussion will continue the conversation we began on October 29, with more of an emphasis on specific strategies to reduce the stress and anxiety teachers and other members of your school communities, including yourself, are experiencing during this challenging and unpredictable year. We will look at strategies being used in NYS schools now to promote staff wellness, including circle models, virtual wellness fairs, resiliency activities, and mentoring options. Panelists will share resources that you can use immediately in your own school setting.
