JOHN CAMPBELL
Former School
Principal, Gwinnett
County Public Schools,
Georgia

CHI SUM, TSE
Education Analyst PISA for Schools,
Organisation For Economic
Co-operation and Development
(OECD)

Thursday, November 4 | 4-5 PM

Join us for a conversation with our global partners at Janison, the OECD, and John Campbell to focus on the topic of evaluating the educational impacts of Covid-19 disruptions on schools and students. This webinar will help schools address the challenges they are grappling with during times of global crises and discuss how to kick start your school's road to recovery.

The purpose of this session is to introduce the benefits of the OECD Test for Schools, which is emerging across the US and around the world as a way to collect and use data to empower educators to make a meaningful impact on student outcomes.

OPEN AND FREE TO ALL EDUCATORS
TEAMS AND INDIVIDUALS ARE WELCOME TO ATTEND

As students and teachers return to the physical classroom, it is a good time to reflect on the impact of school building closures. In particular, this webinar will focus on:

- The responsiveness and resilience of students and educators during the pandemic and what we have learned about ourselves.
- The use of the Global Crises Module in the OECD Test for Schools to help us learn from recent events and prepare our mindset for the future.
- Lessons learned from delivering a global assessment during a pandemic.
