## Enhancing Your Special Education Knowledge and Skills: A Series for Building Leaders

As a building leader, you have many responsibilities with regard to special education, but may feel unprepared for them if you have a general education background. This dynamic three-part series is based upon the book, *The Principal's Special Education Calendar*, which is a practical guide that explains a leader's special education responsibilities over the course of a school year. With over 40 years' experience as a principal and director of special education, Dr. Joanne Lane will combine practical strategies with the critical knowledge you need to begin the next school year feeling more confident, informed and empowered with regard to special education issues.
