SAANYS Region 5 Virtual Meeting
TUESDAY, JANUARY 13th 4pm

General Membership Meeting and Presentation
Transforming K-12 Administration with AI: *Saving Time, Increasing Efficiency, and Fostering Innovation*

Session Description:
During this session, participants will explore how artificial intelligence tools can serve as effective assistants in administrative work. The presentation will showcase practical ways administrators can use tools such as Google Gemini, Gemini Live, Google Gems, Google Vids, Canva, Suno, HeyGen, Brisk, and more to save time, increase efficiency, and foster innovation while maintaining a strong focus on responsible use, privacy, and data security.

Dr. Michael Kealy is an accomplished educational technology leader and the 2025 NYSCATE Outstanding Leader of the Year (New York State Association for Computers and Technologies in Education), recognized for visionary leadership and impact on digital learning. He serves as Executive Director of Technology in the Arlington Central School District and a member of the superintendent's cabinet, leading strategic technology planning, cybersecurity, and instructional innovation for more than 7,600 students in a robust 1:1 learning environment. With over a decade of K–12 leadership, he has driven districtwide initiatives including Chromebook deployment, emerging technologies, and student tech internship/help desk programs, and helped earn statewide and national recognition for digital innovation. A frequent conference presenter, Dr. Kealy holds a Doctorate in Educational Leadership and is committed to securing sustainable systems that elevate teaching and learning.

OPEN TO ALL REGION 5 SAANYS MEMBERS
